Cytophotometric data on fluorochromed cervical cells. MARIANNA MASIN and FRANCIS MASIN 311
Mammary carcinogenesis by 3-methylcholanthrene. III. Induction of mammary carcinoma and milk secretion in male rats bearing ovarian grafts. THOMAS L. DAO and MARY J. GREINER. [Plates 39–41] 333
Comparisons between survival of grafted skin, ovaries, and tumors in mice across histocompatibility barriers of different strength. OWE E. A. LINDER. [Plate 42] 351
Induction of epidermoid carcinoma in lungs of rats: A "new" method based upon deposition of methylcholanthrene in areas of pulmonary infarction. MEARL F. STANTON and ROBERT BLACKWELL. [Plates 43–51] 375
Tolerance induced by parity in mice incompatible at the *H-2* locus. EDWARD J. BREYERE and MORRIS K. BARRETT. [Plates 52, 53] 409
Smoking habits of men and women. E. CUYLER HAMMOND and LAWRENCE GARFINKEL 419
Genetic and environmental influences on teratocarcinogenesis in mice. LEROY C. STEVENS and JUDITH A. MACKENSEN 443
"Safety" testing of carcinogenic agents. NATHAN MANTEL and W. RAY BRYAN. 455
Lysis of homologous cells by sensitized lymphocytes in tissue culture. WERNER ROSENAU and HENRY D. MOON. [Plates 54–56] 471
Announcements:
Council for Medical Communication Institute 485
National Cancer Institute Monograph No. 6 485
Manuscripts Approved for JNCI, June 15 to July 15, 1961 486

No. 3—SEPTEMBER 1961

Cytotoxicity of a horse antihuman cancer serum for normal and malignant cells *in vitro*. MILTON N. GOLDSTEIN and RAYMOND HIRAMOTO. [Plate 57] . 487
Experimental mammary adenocarcinoma of rats: Some considerations of methylcholanthrene dosage and hormonal treatment. HARRY SHAY, MARGOT GRUENSTEIN, and WOODROW B. KESSLER 503
Mammalian chromosomes *in vitro*. XV. Patterns of transformation. T. C. HSU, DANIEL BILLEN, and ALBERT LEVAN. [Plates 58–62] 515
Production of hyaluronic acid by fibroblasts growing from explants of Walker tumor 256: Production of hyaluronidase by the tumor cells. HENRY GROSSFELD. [Plates 63–66] 543
Influence of adrenocortical, androgenic, and anabolic hormones on the development of carcinoma and cirrhosis of the liver in A × C rats fed *N*-2-fluorenyldiacetamide. HARLAN I. FIRMINGER and MELVIN D. REUBER. [Plates 67–75] 559
Glucose metabolism of tumors induced by Rous sarcoma virus. I. Comparison of chorio-allantoic membrane with tumor of the chorio-allantois induced by Rous sarcoma virus. ALVIN S. LEVINE, RICHARD UHL, and JAMES ASHMORE 597
Carcinogenesis of the uterine cervix in mice: Effect of diethylstilbestrol after limited application of 3-methylcholanthrene. EDWIN D. MURPHY. [Plates 76–82] 611
Mode of inheritance of resistance to Rous sarcoma virus in chickens. NELSON F. WATERS and B. R. BURMESTER 655
The hepatocarcinogenicity of a series of 4′-alkyl-4-dimethylaminoazobenzenes. ELLIS V. BROWN and ALI A. HAMDAN 663
β-Glucuronidase activities of cultured cells derived from C3H mouse liver. EDWARD L. KUFF and VIRGINIA J. EVANS 667
Studies on the exchange of fluids between host and tumor. I. A method for growing "tissue-isolated" tumors in laboratory animals. PIETRO M. GULLINO and FLORA H. GRANTHAM. [Plates 83, 84] 679

Page

Comparative study of the carcinogenic activity of nitrosamines. MARY F. ARGUS and CORNELIA HOCH-LIGETI. [Plates 85–88] 695
Announcement:
Manuscripts Approved for JNCI, July 15 to August 15, 1961 711

No. 4—OCTOBER 1961

Observations on the surface cells of the mouse omentum as studied with the phase-contrast and electron microscopes. MARIE D. FELIX. [Plates 89–96] 713
An electron microscopic study of a series of murine lymphoid neoplasms. ALBERT J. DALTON, LLOYD W. LAW, JOHN B. MOLONEY, and ROBERT A. MANAKER. [Plates 97–112] 747
Persistent Theiler's virus in ependymoma tissue culture and the problem of virus-like bodies seen by electron microscopy. HAROLD E. PEARSON and RICHARD F. BAKER. [Plates 113–115] 793
Evaluation of inhibition of human tumor tissue by cancer chemotherapeutic drugs with an *in vitro* test. JOSEPH A. DIPAOLO and JOHN E. DOWD 807
Effects of adrenocorticotropin and insulin on carcinogenesis in hypophysectomized rats. B. G. DODGE, M. A. O'NEAL, J. P. CHANG, and A. C. GRIFFIN . . 817
Cell proliferation in precancerous liver: Relation to presence and dose of carcinogen. ANNA KANE LAIRD and A. D. BARTON 827
Production of viable single cell suspensions from solid tumors. ROBERT E. MADDEN and DEAN BURK. [Plates 116–118] 841
Glucose metabolism of tumors induced by Rous sarcoma virus. II. Isotope studies of alternate pathways. JAMES ASHMORE, GEORGE WEBER, GOURI BANERJEE, and WILLIAM C. LOVE 863
Glucose metabolism of tumors induced by Rous sarcoma virus. III. Carbohydrate metabolic enzymes in Rous sarcoma. GEORGE WEBER, GOURI BANERJEE, ALVIN S. LEVINE, and JAMES ASHMORE 869
Site distribution of cancer deaths in husband-wife and sibling pairs. WILLIAM Y. CHEN, LYMAN B. CRITTENDEN, NATHAN MANTEL, and W. ROSS CAMERON . 875
Chromosome constitution of cells in effusions of cancer patients. TAKAAKI ISHIHARA, GEORGE E. MOORE, and AVERY A. SANDBERG. [Plates 119–133] . . 893
Announcements:
Symposium on Basic Problems in Neoplastic Disease 935
Manuscripts Approved for JNCI, August 15 to September 15, 1961 935

No. 5—NOVEMBER 1961

Immunohistochemical studies on the antigenic relationship of some muscle tumors to normal skeletal muscle cells. R. HIRAMOTO, J. CAIRNS, and D. PRESSMAN. [Plates 134, 135] 937
A study of mitotic rate in renewal zones of nondiseased portions of gastric mucosa in cases of peptic ulcer and gastric cancer, with observations on differentiation and so-called "intestinalization" of gastric mucosa. HARALD TEIR and TOIMI RÄSÄNEN. [Plates 136–139] 949
Gm factors in normal γ-globulin fractions, myeloma proteins, and macroglobulins. J. L. FAHEY and SYLVIA D. LAWLER 973
Chromosome studies in human leukemia. I. Acute leukemia in children. DAVID A. HUNGERFORD. [Plates 140–149] 983
Chromosome studies in human leukemia. II. Chronic granulocytic leukemia. PETER C. NOWELL and DAVID A. HUNGERFORD. [Plates 150–156] 1013
Spontaneous tumors in the Sprague-Dawley rat. S. W. THOMPSON, R. A. HUSEBY, MARY A. FOX, C. L. DAVIS, and R. D. HUNT. [Plates 157–159] . 1037
Skin homograft tolerance in long-lived radiation chimeras and its abolition by injected lymphoid cells. W. E. DAVIS, JR., and L. J. COLE 1059

Studies on the mechanism of isoantigenic variant formation in heterozygous mouse tumors. I. Behavior of *H-2* antigens D and K: quantitative absorption tests on mouse sarcomas. Eva Klein..... 1069

Studies on the mechanism of isoantigenic variant formation in heterozygous mouse tumors. II. Behavior of *H-2* antigens D and K: cytotoxic tests on mouse lymphomas. K. E. Hellström..... 1095

Specific localization *in vivo* of antihepatoma antibodies in autochthonous rat hepatomas. Eugene D. Day, Jakob A. Planinsek, and David Pressman..... 1107

Inactivation by electron radiation of the capacity of goldenrod polysaccharide to induce vacuolization in ascites tumor cells. John W. Preiss, Morris Belkin, and Walter G. Hardy..... 1115

Observations on the occurrence of hepatomas in rainbow trout. W. C. Hueper and W. W. Payne. [Plates 160–163]..... 1123

Plasma glycolytic, citric acid cycle, and transaminase enzyme levels in hamsters with a transplanted mammary adenocarcinoma. M. West, M. Schwartz, and H. J. Zimmerman..... 1145

Long-term cultivation in tissue culture of leukemic cells from mouse leukemia induced by Moloney virus or by X rays. Haim Ginsburg and Leo Sachs. [Plates 164–167]..... 1153

Effect of enol-ether derivatives of dihydrotestosterone on 3-methylcholanthrene-induced rat mammary carcinoma. Alberto Ercoli and Giuliano Briziarelli. [Plates 168, 169]..... 1173

Elimination of the effect of the A^y gene on pulmonary tumors in mice by alteration of its effect on normal growth. W. E. Heston and George Vlahakis.. 1189

Simple and radical mastectomy for breast cancer: a re-analysis of Smith and Meyer's report from Rockford, Illinois. M. B. Shimkin, M. Koppel, R. R. Connelly, and S. J. Cutler..... 1197

Intranuclear inclusions in *Rattus* (Mastomys) *natalensis* infected with rat virus. Alan S. Rabson, Lawrence Kilham, and Ruth L. Kirschstein. [Plate 170]..... 1217

Announcements:

Sixteenth Annual Symposium on Fundamental Cancer Research..... 1224

Second International Congress of Radiation Research..... 1224

Manuscripts Approved for JNCI, September 15 to October 15, 1961..... 1225

No. 6—DECEMBER 1961

Distribution of primary lung carcinomas in relation to time as determined by histochemical techniques. Doris L. Herman and Margaret Crittenden. [Plates 171–175]..... 1227

Induction of mammary cancer in agent-free mice bearing pituitary isografts correlated with inherited hormonal mechanisms. John J. Bittner and Harvey L. Cole..... 1273

Effect of cortisone on skin maintained in organ culture. Ronald W. Gillette, Angelica Findley, and Herbert Conway. [Plates 176–184]..... 1285

Studies on the effects of surgery on transplanted animal tumors and their metastases. Alfred S. Ketcham, Hilda Wexler, and Nathan Mantel. [Plate 185]..... 1311

Transplantable tumors of the Syrian golden hamster (*Mesocricetus auratus*). Humberto Garcia, Carlo Baroni, and Henry Rappaport. [Plates 186–188]..... 1323

Biochemical and morphologic heterogeneity in a transplantable mast-cell neoplasm. Charles E. Mengel and Jerry S. Trier. [Plates 189–193]..... 1341

Failure of bone marrow to interfere with the augmentation of X-ray leukemogenesis by urethan. I. Berenblum, F. E. Rewald, and N. Trainin..... 1361

Page

Intracellular localization of "hematoporphyrin" in a transplanted tumor. JAMES WINKELMAN. [Plate 194] 1369
Protective effect of parasympatheticomimetic agents on ciliated mucus-secreting epithelium. HANS L. FALK, PAUL KOTIN, and HERTA M. TREMER 1379
Radiation response of mammalian cells grown in culture. II. Survival and recovery characteristics of several subcultures of HeLa S3 cells after X irradiation. R. Z. LOCKART, JR., M. M. ELKIND, and W. B. MOSES 1393
Electron microscopy of the H-1 virus. I. Morphology of the virus and a possible virus-host relationship. SATISH CHANDRA and HELENE WALLACE TOOLAN. [Plates 195–211] 1405
New metabolites of *N*-3-fluorenylacetamide. ELIZABETH K. WEISBURGER 1451
Studies on the exchange of fluids between host and tumor. II. The blood flow of hepatomas and other tumors in rats and mice. PIETRO M. GULLINO and FLORA H. GRANTHAM. [Plates 212–214] 1465
Hormone-induced tumors. II. Flank-organ epithelioma of the Syrian hamster *in vitro*. F. THOMAS ALGARD 1493
Effect of azo-dye hepatocarcinogenesis on the substrate induction of tryptophan pyrrolase activity. DONALD E. KIZER 1503
Acknowledgment 1513
Index of authors 1517
Index of subjects 1521
